Continued In-Service Training For Mississippi Highway Patrolmen

A continuing in-service training program for Mississippi Highway Patrolmen, driver's license examiners and radio operators has been inaugurated by Public Safety Commissioner Thomas Shelton.

The Highway Patrol head announced that recent changes in Motor Vehicle Traffic Code, powers and jurisdiction of arrest, and proper officer conduct would be among topics to be reviewed in the classes.

"This inaugurates a continuing training program within the Department of Public Safety," Shelton said. "Complexities inherent in changing legislation and in technical and scientific progress make continuous training of the law enforcement officer a necessity."

Grady Gilmore, director of Patrol safety education—public re-

lations, is directing the in-service training program. Initial classes will be of 16-hour duration per Patrol district on a split-shift basis, with each Patrolman, driver license examiner, and radio dispatcher to receive 8 hours of instruction.

The first class was held at New Albany (District Four) July 7-8, with classes to follow at Batesville July 12-13, Jackson July 14-15, Greenwood 19-20, Brookhaven 21-22, Starkville, July 26-27, Meridian August 2-3, Hattiesburg Aug. 4-5 and Gulfport Aug. 9-10.

Starting August 15, the Highway Patrol will have its nine district inspectors FBI-trained as firearms instructors. They will fire, then teach, the FBI's practical pistol course on combat firing.

GIRL SCOUTS SET ASIDE NEXT TWO YEARS FOR PROGRAMS

Girl Scouts throughout the United States have set aside the next two years for special programs.

The programs will have special emphasis on two events: the 100th anniversary of the birth of the founder of Girl Scouting, Juliette Gordon Low, and the 50th anniversary of Girl Scouting in the United States.

In commemoration of the birthday of Mrs. Low a ceremony will be held at the Founder's Birthplace in Savannah, Ga. Local councils will honor founders in their own communities, and troops can prepare program activities to share in the event, Mrs. Frotcher Stecker, program chairman for the Gulf Pines Girl Scout Council, stated.

Mrs. Low's birthday falls on October 31, and the week of Oct. 30 has been set aside for the celebrations.

The theme for the two years is "honor the Past, Serve the Future." Four divisions have been suggested to leaders and troops. The first is Find Four Founders. This part of the program should be during 1960.

The year 1961 will honor Yesterday's girl scouts—Today's Career Women. These women will be recognized during Girl Scout Week in March, 1961, and in April, 1961. They will send snapshots and histories of these people to national headquarters for use in national publicity.

Part of 1961 will be devoted to Heritage hikes. These hikes will be made in the spring, summer and fall. On these hikes girls will learn about the past and present of their own localities.

Also in 1961 in honor of the 50th birthday celebration the Girl Scouts throughout the country will beautify their surroundings by planting gold-and-green flowers. Planting of seeds and bulbs by troops will begin in late summer, early fall and winter of 1961. The flowers should bloom for the 50th birthday, March, 1962. Tending of the plants should continue thru 1962 and 1963.

The year 1962 is dedicated to "Serve the Future." During 1961 a survey will be made of the needs of the community's children. On March 12, 1962, this project will be announced and on March 12, 1963, a report of the results of the project will be announced to the community.

Miss. Manufacturers Assn. To Analyze Products For Taxation

The Mississippi Manufacturers Assn. Taxation Committee took steps at a meeting in Jackson on Thursday to begin an analysis of the law passed by the 1960 Regular Session of the Legislature which exempts manufactured products in the hand of the manufacturer from ad valorem taxation.

"It is obvious," stated M. F. Hubbard, chairman of the committee, "from the many questions that have been received by the MMA and the State Tax Commission, that there will be much confusion regarding this new law. Since the exemption will be granted only in those cities and counties which elect to grant it we feel it necessary to furnish industry and the public with as much factual information as possible so that those counties wishing to grant the exemption as an aid to securing new industry can go about it in the proper manner."

Hubbard stated that the manufacturers association will begin within the next few days, to send information to industrial firms, county and city governing boards, chambers of commerce, industrial development groups and others. He further stated that the information would be obtained through the Mississippi State Tax Commission.

B-W Home Demonstration Club Meeting And Luncheon Held

The roll call was answered with "Gardening Hints" at a recent meeting and luncheon of the Bay Home Demonstration Club held at the home of Mrs. R. F. Gray, with Misses E. T. Ireland, Hilaire Ogden and Marion Olestad and Miss Barbara Gray as co-hostesses.

Mrs. Hughes gave a demonstration on Food Freezer packing material and presented the topic of the month, "Keeping Up With the Joneses."

Mrs. Gray, delegate to the recent state council meeting, gave an interesting report on the meeting.

A work shop for making the trivets is scheduled for July 20. The thought for the month was "He Has Achieved Success who Has Lived Well, Laughed Often and Loved Much."

Milk is nature's most nearly perfect food. This is no idle boast, but is backed by scientific facts. More than 200 nutrients have been identified in milk. Milk provides enough energy to do any of the following: Play 9 holes of golf, dance for one hour, play 20 games of tennis (1 hour), walk one mile, climb 100 stairs, lift 100 lbs. for 25 hours, or work for 2 days.

Mississippi Farm Leaders Meeting In Jackson

Agricultural economics, foreign trade and commodity problems will be studied by Mississippi farm leaders July 12-13 in Jackson at a leader's conference sponsored by the Mississippi Farm Bureau Federation at Hotel Hildeberg.

Five intensive subjects will be discussed by experienced leaders: "Basic Economic Principles Involved in Our Agricultural Economy" will be discussed by Dr. Harry M. Love of Virginia Polytechnic Institute, Virginia. This 1-hour demonstration by Dr. Love proved popular with national farm leaders this spring in American Farm Bureau regional institutes. County Farm Bureau leaders will be given an opportunity of participating in this class.

St. Corley, state agriculture commissioner, will conduct a two hour session entitled "The Mississippi Department of Agriculture and What It Means to You."

Other out-of-state leaders include Dr. Ben Hood, director of the commodity division of the American Farm Bureau Federation, "Building Commodity Opportunities Through Farm Bureau," Herbert Harris, American Farm Bureau legislative assistant, "The Farmer's Stake in Foreign Trade," and Warren Towberry, American Farm Bureau area field services director, "County Farm Bureaus in The New Frontiers in Agriculture."

OWEN HEITZMANN IS SHOWN WITH A RECORD. He made one night last week at Calumet, Ill., with the fish to back it up.

Some 350 farm people from all counties are expected to be enrolled in the study program presided over by Boswell Stevens, Macon, president of each section to a classroom address general group.

Contributions To Be Used
For Research and Training

More than \$25,000 contributed to the American Heart Association's research fund will be used for research and training in the heart and blood vessel diseases this year.

The American Heart Association's research fund was announced this week by Dr. J. M. Hudson, Jr., association president.

The voluntary health agency will support 18 research projects and two fellowships in the year beginning July 1, he said. All awards are to University Medical Center personnel.

Much of the heart association sponsored research is concerned with basic problems in the heart and blood vessel function he stated. Other major targets are the role of dietary fats in hardening of the arteries, the use of various medications to reduce high blood pressure or lessen blood clotting; kidney disease, the effect of anesthesia on the circulation and dramatic heart transplantation techniques.

Two young scientists will continue their training in the heart and blood vessel diseases at the University Medical Center as Cardiovascular Fellows in the Departments of Physiology and Biophysics. A sum of \$11,000 has been set aside for their support.

American Heart Association awards, made possible by Mississippi contributions, add \$13,310 to the total going to Dr. A. C. Guyton, professor of physiology, and Dr. William C. Holland, professor of pharmacology.

Sixteen investigators selected by the Mississippi Heart Association will share \$28,000 in the Departments of Biochemistry, Physiology, Pharmacology, Anatomy, Medicine, Pathology, Surgery, Anesthesiology and Clinical Laboratory Sciences. Contributions to the Heart Fund financed all awards, Dr. Hudson stated.

Good reports come in of all kinds of fish being caught over the weekend. Fresh water, salt water, fish, flounders, soft crabs and hard crabs.

John Van Pesky caught a nice bunch of hard crabs Saturday morning off the city pier. He said they are giving pretty good.

Luke Elliott and Joe Glover, both on vacation, last week, made some good catches of speckles and green trout. Joe has really been enjoying his boat with his wife and the kiddies.

August Rauxet, Alden Maufrey and Yours Truly caught some large green trout up Jordan and Pearl Rivers, Saturday and Sunday.

Willard Gavagnie reported he has been catching some good green trout and perch up Pearl River. Lucien Kidd hasn't been doing so bad himself. Pearl River is clear just now and plenty of fish are being caught up there and big ones, too.

Given's place at Pearlington and Jim Kelly's Camp on Mulato Bayou were busy places over the weekend. End and fish are being caught there regularly. Pearl River is full of skiers—speed boats galore.

Dr. John Griffin joined the Hole in One Club, Sunday when he made a hole in one on the 7th hole at Pass Christian Isles. Good going, Doc!

Best wishes are extended to Ambrose J. Chiche on his 30th birthday, celebrated this week.

John Brume and son-in-law Joe Ray, on vacation from New Orleans, have been enjoying some fishing this week. Joe also loves to do underwater swimming.

Shrimp are being caught almost everywhere, even right out front with small seines and cast nets. They are running nice, size.

Soft crabs are back again after laying off for a while. Tides are getting back to normal. The crabs are rather small however.

A. G. Dantagan was telling us of the large flounder he caught the other night. He loves to go after them.

John Genin was winner in the junior division in the tourney held last week at Pass Christian Isles Golf Club. John is shooting a nice game right now.

Big goings should be in store for everyone at Our Lady of the Gulf Church Fair to be held July 16th and 17th on the grounds of St. Stanislaus Back School. Better be there.

Mrs. M. L. Ansley and great-grandchildren Peggy and Dinah Smith of Algiers were weekend guests of her son and daughter-in-law, Mr. and Mrs. James Ansley and family.
